Notes

* While this program does NOT technically satisfy the state's licensure requirements, there is a pathway to licensure available for graduates of this program. Contact a program advisor for all the details.

** Because this state does not offer or require a license in this profession or specialty, the U.S. Department of Education defines this program as meeting the educational requirements for licensure in this state.

If a U.S. state, district, or territory is not listed here, UNC Charlotte has not determined whether the program meets or does not meet the educational requirements for licensure in that jurisdiction.

UNC Charlotte can only enroll in this program students whose Future Professional Licensure Location is listed in the **'Meets'** column.

Visit Charlotte's [Professional Licensure website](#) for much more about its Professional Licensure Programs, including FAQs for students, advisors, and staff and contact information for all states' licensure boards.
